

The Old Way

Detroit River Tunnel, Detroit, Mich.

The New Way

HAS THE UNIQUE distinction of being the only tunnel of this type built. It was constructed in sections all work being done from the surface of the water without the use of compressed air. The tunnel is operated electrically. Construction was started October 1, 1906, and completed July 1, 1910. The length from portal to portal is 13-8 miles and from summit to grade 21-2 miles. It was built for the M. C. R. R. at a cost of \$8,500,000.
